NEWSLETTER

Welcome to our quarterly newsletter!

We are thrilled to enthusiastically showcase the latest and most impactful developments and activities that have unfolded at our esteemed center. This edition serves as a comprehensive showcase of the myriad projects and fruitful collaborations we've engaged in with prestigious international schools. Furthermore, we are delighted to proudly unveil an exciting addition to our outreach efforts: the launch of our dedicated YouTube channel. Through this platform, we aim to offer dynamic and immersive video content, serving as an invaluable resource hub for individuals keenly interested in exploring the realms of sustainable finance, green economy initiatives, and the cutting-edge landscape of digitalization."

1) The Information Event for Students and a new Youtube Channel

- On 18 September 2023 the ECESBF successfully held the information event for students "Learning about Sustainability and Digitalization: Focus on European Experience". We shared the information about the advanced courses organised by the ECESBF for more than 50 students during the event and invited all students of TSUE to take part in them.
- We are excited to announce the release of several engaging new videos on our YouTube channel, covering a diverse range of topics. These informative and captivating videos delve into various subjects, offering valuable insights and knowledge to our audience.

2) University Collaboration with VOSIQ International School

We have consistently aimed to offer young students access to top-notch education, and our partnership with VOSIQ International School enables us to turn this vision into reality. Collaborating on this joint course allows us to equip students with essential skills that will benefit them not just academically, but also in their everyday lives, and we are delighted with the outcomes thus far. Through the expertise of our teachers and the curriculum provided by VOSIQ IS, we have developed a stimulating program that incorporates interactive lessons, hands-on projects, and ample opportunities for real-world application of knowledge.

3) The training session for educators

We are delighted to announce our recent event tailored for professors, lecturers, and academic trainers, entitled "Teaching Methodologies for Sustainability and Digitalization: A Focus on European Insights" that took place on September 19, 2023, at TSUE.

The highlights of the event include an interactive lecture on teaching methodologies for sustainability and digitalization, featuring best practices gleaned from European experiences.

Along with engaging discussions and lively exchanges of ideas among participants, there were collaborative planning sessions aimed at charting future joint teaching initiatives within the framework and with the support of ECESBF.

We thank you for your interest in our projects and activities. Our team will continue to work towards a sustainable future, and we eagerly anticipate new achievements and opportunities together with you.
